Jax Engel

Staff Product Designer

Fort Worth, TX (Remote) | hello@jaxengeldesign.com | linkedin.com/in/jaxengel | jaxengeldesign.com

Summary

Staff Product Designer & Design Technologist with 11+ years of experience architecting scalable design systems, complex enterprise tools, and AI-assisted workflows. Proven track record of bridging product design and front-end engineering to reduce UX friction, unify multi-team ecosystems, and embed accessibility at scale.

Experience

Senior UX Engineer

Toyota | Contract | Plano, TX (Hybrid) | Oct 2025 – Current

- Architected an enterprise design tokens framework and automated pipeline, engineering seamless synchronization from Figma to multi-platform production code to streamline design system delivery.
- Designed token taxonomy, rollout strategy, and adoption roadmaps, establishing foundational infrastructure capable of scaling beyond supply-chain products into multi-channel enterprise applications.
- Supported 40+ product teams building on the React design system, driving component adoption, resolving integration blockers, and coordinating releases using Storybook, GitHub, and Jira.
- Standardized design system operations by authoring comprehensive technical specifications, maintaining Zeroheight documentation, and contributing to accessibility-compliant component design and code implementation.

Staff UI/UX Designer

ServiceNow | Contract | Remote | Feb 2024 – Oct 2025

- Spearheaded the design of an AI-driven insights platform, centralizing qualitative research assets to institutionalize knowledge-sharing and eliminate redundant studies.
- Advanced inclusive, scalable UX by embedding accessibility into reusable patterns and design documentation, supporting designers across the org.
- Accelerated product delivery by launching a shared component library that cut repetitive UI design by 60%, improving speed and consistency across design.

Senior Product Designer

Albertsons | Contract | Remote | Jun 2023 – Sep 2023

- Improved consistency and delivery speed across a merchandising platform serving 5,000+ stores by shaping reusable components and documentation for teams.
- Drove adoption across 20+ teams by aligning on shared patterns and guiding implementation within enterprise tools.

Senior Product Designer

ActBlue | Remote | Mar 2022 – May 2023

- Redesigned core admin and integration flows, simplifying reporting workflows and setup while reducing confusion. Helped cut support costs by $1.5M annually.
- Partnered closely with engineers to scope complex integration logic and ensure robust error handling and sync visibility across third-party systems.
- Improved product usability and inclusion by leading accessibility efforts and documenting inclusive patterns adopted across multiple product teams.

Senior Product Designer
Routable | Remote | Nov 2021 – Mar 2022

- Streamlined bulk invoicing workflows for financial power users by introducing batch actions and grouping features that reduced task time and increased efficiency.
- Reduced support volume by improving key flows based on user interviews with small business clients, addressing usability gaps in core invoicing tasks.

Senior Product Designer
FireHydrant | Remote | Nov 2020 – Nov 2021

- Architected mission-critical incident management workflows for enterprise engineering teams (Spotify, Peloton, Snapchat), reducing cognitive load during high-severity outages.
- Increased incident response efficiency by designing key workflows for role assignment, communication handoff, and postmortem documentation across engineering teams.

UX Designer
Indeed | Remote | Feb 2020 – Oct 2020

- Enabled consistent UX at scale by designing shared UI patterns adopted across B2B and B2C products on web and mobile.
- Improved accessibility, localization, and responsiveness by partnering with product and engineering to embed inclusive practices into design assets used by over 100 designers.

Senior UX Engineer
Visa | Austin, TX | Nov 2015 – Feb 2020

- Redesigned fraud investigation tools for enterprise clients, improving usability and flow efficiency across global teams. Led usability testing and alignment workshops that contributed to a 20% reduction in case resolution SLAs.
- Designed transaction reporting and tokenization workflows for e-commerce and omni-channel merchants, balancing regulatory needs with streamlined UX in complex fintech environments.

Skills

Design Systems & Engineering: Enterprise Token Taxonomy, Component Libraries, Multi-Platform Pipelines, Storybook, React, SCSS, SASS Architecture, HTML, CSS, Technical Specifications

Product & UX Strategy: Enterprise Workflow Architecture, AI-Augmented Workflows, Accessibility (WCAG), Inclusive Design, Product Discovery, Usability Testing, User Research, Prototyping

Design Operations & Leadership: Cross-Functional Governance, Cross-Departmental Rollouts, Technical Documentation, Mentorship, Team Alignment

Tools & Platforms: Figma, FigJam, Claude, Zeroheight, GitHub, Copilot, Jira, Confluence, Notion, Miro, Framer, Adobe Creative Cloud, ChatGPT, Gemini

Education

The Art Institute of Austin | Bachelor of Fine Arts, Web Design & Interactive Media
